### HEALTH CARE REFORM: BUILDING MOMENTUM FOR CHANGE

October 15, 2008, 12:30 P.M. - 2 P.M.

University of Minnesota Hubert H. Humphrey Institute of Public Affairs

Prominent health care leaders will discuss health care reform at a 2008 Financial Planning Week event. The free public forum titled "Health Care Reform – Building Momentum for Change" will be held from **12:30 p.m. - 2 p.m. on October 15, 2008 at the University of Minnesota Hubert H. Humphrey Institute of Public Affairs, Cowles Auditorium. Registration & refreshments begin at 11:30 am.**

Health care reform is a growing subject of public discussion, and has become particularly significant following a 2007 Minnesota law that outlines the state's goal for all Minnesotans to have access to affordable health care.

Health care issues directly impact all of us. Business owners, employees and retirees continue to struggle with the increasing costs of health insurance benefits and where the burden of these costs should fall. The October 15 panel will explore these issues, and discuss potential changes and solutions for the future.
